

CCAPC Contest Guide

Logistics

- The contest is on October 18, 2026.
- Here is the (tentative) schedule (PT):

8:15am-9:15am	Check In/Opening Ceremony
9:15am-12:45pm	Contest
12:45pm-1:45pm	Lunch
1:45pm-2:45pm	Activities
2:45pm-3:15pm	Closing

- The actual contest is from 9:00am-12:30pm (10/18).
- If possible, it is recommended to participate in person at Canyon Crest Academy.
- 5951 Village Center Loop Road, San Diego, CA 92130.
- The contest is at Canyon Crest Academy.
- Codeforces Group Link: [link] .
- It is recommended to join the Codeforces group before the competition starts.
- For communication/questions, join the [discord server](#).

Rules

- Internet usage is allowed (you may look at helpful resources online).
- Pre-written code (templates) are allowed.
- You may copy code from the internet that was written prior to the start of the competition.
- Teams of up to 3 are allowed.
- The AI policy is adopted from Codeforces. [Link](#)
- No using AI to help on problems in any way (besides autocomplete and translation between languages [NOT coding languages]).
- No communicating with other teams during the competition to gain an advantage.
- You may communicate within your own team and share code.
- All submissions must be made during the 3.5 hour window.
- In the case of technical issues, please contact an organizer.
- Use common sense.
- Breaking rules may result in disqualification.

Contest Format

- The contest is hosted in a private Codeforces group.
- Once in the group, press the “register” button to register for the contest.
- Each individual should have their own Codeforces account, and create a team using the “invite to team” feature built into Codeforces.
- Make sure to press “register as team” when joining the contest.
- There are two divisions: beginner and advanced.
- Advanced is recommended for Codeforces ratings 1500+/High USACO Silver and above.
- Beginner is recommended for everyone else.
- All problems are weighted equally, and are ordered approximately by difficulty
- For teams with the same amount of problems solved, penalty determines who has a higher rank.
- $\text{Penalty} = \text{The sum of the times at which each problem was solved} + 20 * \text{the number of incorrect submissions on each problem.}$
- Note: Wrong submissions only add penalty if the problem is solved.
- There are 12 problems in each division.
- For each problem there is a memory and time limit.
- Your code must complete the task while staying under the memory and time limit.

Sample Problem

- To familiarize yourself with submitting on Codeforces, please practice with the following problem.
- <https://codeforces.com/contest/1669/problem/A>
- Prerequisites for this contest include being comfortable with at least one programming language and how to do input/output with it.

Pre-contest Checklist

1. Create a Codeforces account.
2. Join the CCAPC Codeforces Group.
3. Create/join your team on Codeforces.
4. Register for the contest as a team.
5. Complete the sample problem to make sure you know how to submit.
6. Join the Discord server in case you have any questions.
