BEFORE COMPETITION DAY

Set up Codeforces

Complete these steps early. Every team member must have a separate Codeforces account, join the group, and accept their team invitation.

01 **Create a Codeforces account**

Register if you do not already have an account. Every participant needs their own account. Sign up

02 **Join the CCAPC Codeforces group**

Sign in, open the group, and join. Open group

03 **Create your team and invite teammates**

One member creates a team using the same name used at CCAPC registration, then invites teammates by Codeforces handle. Everyone must accept the invitation. Solo contestants can create a one-member team. Create team

04 **Register for CCAPC as a team**

After contest registration opens inside the CCAPC group, choose “Register as team” and select the correct team. Online teams must register for the Beginner or Advanced division chosen at signup; in-person teams use the combined in-person contest.

05 **Practice making a submission**

Solve and submit Codeforces Problem 1669A (“Division?”). Check that you know how to select your language, submit code and read the verdict. Sample problem

06 **Join Discord**

Use the server for announcements, help with Codeforces setup, and contest-related questions. Join Discord

FINAL PRE-CONTEST CHECKLIST

- ☐ Individual Codeforces account for every teammate
- ☐ Group membership requested / approved
- ☐ Correct team members and contest division
- ☐ Practice problem submitted; Discord joined

If the CCAPC contest is not visible yet, complete the other steps first and check the group or Discord for registration updates.

COMPETITION FORMAT

Divisions, scoring & rules

IN-PERSON	ONLINE
One combined division for all in-person teams.	**Two separate divisions: Beginner and Advanced, as selected at registration.**

How the contest works

- The contest runs for 3 hours and 30 minutes, from 9:30 AM to 1:00 PM PDT, on Codeforces.
- Teams can have 1–3 members. Problems are weighted equally and are ordered approximately by difficulty.
- Each problem has a time and memory limit. Only submissions made during the contest period count.
- Standings rank teams by problems solved; ties are broken by lower penalty.

PENALTY CALCULATION

Sum of acceptance times (in minutes) + 20 minutes per incorrect submission on problems eventually solved. Incorrect submissions on unsolved problems do not add penalty.

Permitted during the contest

- Internet research, online documentation, reference materials and prewritten programming templates.
- Code publicly available before the contest begins, subject to the AI restrictions below.
- Discussion and code sharing among members of your own registered team.

Not permitted

- Communicating, collaborating or sharing solutions with other teams to gain an advantage.
- Using generative AI to solve, explain, design algorithms for, or debug contest problems.
- Plagiarism, attempts to circumvent Codeforces rules, or other conduct that compromises fair play.

AI policy. CCAPC adopts the Codeforces AI policy. Limited ordinary autocomplete and direct translation between natural languages are exceptions; do not use AI for algorithmic assistance or translation between programming languages. Read the policy

FAIR PLAY

Organizers may disqualify teams for rule violations. Ask an organizer on Discord or in person if a rule is unclear.

AWARDS AND ACTIVITIES

Prizes & the CCAPC experience

All prizes are Devin subscription packages, not cash, and are awarded to EACH member of a winning team.

Package details: $500 = 2 months of Devin + $100 in Devin credits; $3,000 = 12 months of Devin + $600 in Devin credits.

In-person awards · combined division

PLACE	DEVIN PRIZE PACKAGE / TEAM MEMBER
1st	$3,000 · 12 months + $600 credits
2nd	$500 · 2 months + $100 credit
3rd	$500 · 2 months + $100 credit
4th	$500 · 2 months + $100 credit
5th	$500 · 2 months + $100 credit

Online awards · separate divisions

DIVISION	PLACE	DEVIN PRIZE PACKAGE / TEAM MEMBER
Beginner	1st	$500 · 2 months + $100 credit
Advanced	1st	$3,000 · 12 months + $600 credits
Advanced	2nd	$500 · 2 months + $100 credit

There are no additional online prize-eligibility restrictions. Redemption instructions and subscription start-date details will be shared with winners.

Lunch · 1:00–2:00 PM

Costco pizza will be served to in-person participants. Vegetarian and vegan options will also be available.

Activities · 2:00–3:00 PM

- **Solutions discussion —** Walk through contest problems and possible approaches.
- **Competitive programming Kahoot —** A fun trivia challenge focused on programming and algorithms.
- **Competitive programming 1v1 tournament —** Head-to-head programming matches hosted on cfrace.com.

The closing ceremony and awards are scheduled for 3:00–3:30 PM.

Online participant shirt raffle

CCAPC plans to raffle shirts among online participants after the contest. Every online participant is eligible to enter, but raffle winners who choose to receive a shirt will need to pay the shipping cost. Entry and shipping instructions will be announced after the contest.
